

BareFOOT BIRTH

GET ON THE BUS,
Ya'LL!

who we are

We are a mobile, easy-access clinic to provide prenatal care. Everyone is welcome for care regardless of insurance status or ability to pay. We will offer care on a sliding scale and help families who qualify apply for Medicaid.

No one will be turned away!

what we do

We will be seeing Medicaid and sliding scale client's on the bus in front of the UACDC adjacent to their awesome playground which serves as a lovely reprieve for families as mamas are seen for their visits. This central location provides for heavy foot traffic and ease of commute via public transportation if necessary. We are within minutes of the University of South Florida campus as well to serve any students who may find themselves uninsured or in need of referrals to other community resources.

how to find the bus
